

## LDO 628X (SUBMARINE ELECTRONICS)

### DESIGNATOR DESCRIPTION

Submarine Electronics Limited Duty Officers serve as officer technical leaders and managers in the field of non-nuclear electronics. These officers plan, coordinate, and supervise the installation, operation and maintenance of electronics systems installed in units of the submarine force; assist in the operational evaluation of new installations as well as modifications to existing systems; provide operational and technical input to the research and development community for consideration in the design and testing of electronics systems and components; assist in the preparation and distribution of operator and maintenance training courses; and provide operation and maintenance guidance for electronics systems at all levels of command.

They also may serve as division officers, department heads, or electronics material officers in various operational and staff billets.
